Dear David,

How are you? You said that you wanted to know something about the Mid-Autumn Festival in China. Let me tell you something about it.

The Mid-Autumn Festival is a harvest festival. It is on the 15th day of the eighth month in the Chinese lunar calendar. There are some traditions of this holiday. For example, people have a big dinner with their families. After dinner, they often enjoy the full moon, which is round and bright. Another tradition of the Mid-Autumn Festival is eating moon cakes. As time goes by, there are all kinds of moon cakes. I like the Mid-Autumn Festival because my family usually get together and have a big dinner on that day.

Best wishes to you!

Yours,

Zhang Jie

Home alone

As teenagers, most of us have had experiences of being home alone. Here I'd like to share one of my experiences.

When I was 12, my parents went to visit my sick grandfather, and I had to be home alone for one day. At first, I was a little afraid. But soon I forgot about it because I threw myself into an interesting book. I spent the whole morning reading it. At noon, I took the food out of the fridge and heated it. My mother had cooked it before she left. In order to prove that I could take care of myself, I washed my clothes in the afternoon. In the evening, I did my homework. At night, after watching a film on TV, I went to bed at 10:30 pm.

Being home alone was not so difficult as I had thought. This experience has made me become more confident and independent.

Dear Wang Lin,

I'm glad to receive your letter. It's a shame that you failed your final English exam. Don't worry about it. I believe if you listen carefully in class and practise more after class, you will get good grades next time.

You also told me you took your mother's pocket money without her permission. I think you should tell your mother the truth. You should be honest at least. If you want to buy something useful, I think your mother will give you money.

At the end of the letter I hope you will have a good time.

Yours,

Li Hui

#### One of the most useful inventions — the computer

There are many inventions in the world, and I think one of the most useful inventions is the computer. Computers are becoming more and more important now. They are used by many people in many ways. We live in the "computer age".

Computers can help people do a lot of work. Writers can use them to write. Teachers can use them to help teaching. Students can use them to study. Computers can remember what you put into them. They are very useful and helpful. They are our friends. Computers have changed our life a lot. They've

become an important part of our life. We can hardly live without them.

Ways to protect water

Water is important to us. All living things can't live without water. However, our rivers and lakes are polluted every day. More and more waste water is poured into the rivers and lakes. Something must be done to stop the pollution. We must stop the factories from pouring waste water into the rivers and lakes before it is cleansed. We should stop people from throwing litter into the rivers and lakes. It's important to make people know we should protect the water and the environment. Everyone should try their best to protect the environment.

The Dragon Boat Festival

The Dragon Boat Festival is a traditional festival in our country. I spent a wonderful traditional Chinese festival this year.  
For breakfast, we made and ate zongzi. My father told us the story of Qu Yuan, a great lover of his motherland. I think we should love our country like him. At 10 o'clock, my friends and I watched the dragon boat races held on a river. During the races the sound of drums and the cheers made all the people excited and happy.  
Through the activities I learnt more about traditional Chinese culture. I decided to write about it and share it online.

### The hero in my heart

There are lots of great people in the world and they are like stars in the sky. But the brightest one in my heart is Liu Xiang.

People in the world usually thought that Asians were not good at running. However, Liu Xiang changed their minds. He got first place in the game. He was the first Asian to win the 110-metre hurdles at the Olympic Games in 2004. When Liu Xiang faced the other strong runners, he just thought, "I believe I can." He ran like a flying horse. We can also imagine how hard he tried to prepare for the race.

I think he is a real hero.

- My first home alone experience was unforgettable.  
When I was twelve, once both of my parents were away on

business, and I was left alone at home for two days. My parents left early the first day, and I got up soon after they left. In the first evening I was a little scared, so I turned on all the lights. In order not to get up late the next morning, I put the alarm clock near my bed and set the alarm for 6:00, 6:10 and 6:15. The next day, to show that I could take care of myself, I cooked dinner and washed my own clothes.

I really felt proud of myself and thought I had grown up.

Hello, everyone! We are going to visit the City Museum this Sunday. We will meet at school at 7:30 in the morning. So don't be late. The school bus will take us there. In the museum, we will see the picture show about our city, enjoy all kinds of cultural relics and learn about the history of the city. We mustn't take photos there, but we can take notes. We mustn't take food or drinks to the museum, either. Of course, we should keep quiet and shouldn't touch things while visiting. Wherever we go, we should remember; safety first. I'm sure we will enjoy ourselves in the museum.

Dear Stephen,

I am writing to tell you about my problem with my parents. I don't know how to deal with it. I am interested in playing football. I like staying out very late to play with my friends. But my parents are worried about me and they always ask me to spend more time on study. They are so strict with me about my study. I think that it is necessary to spend some time on my hobbies because they can let me relax and make my life more interesting. Also, playing football can help me keep healthy. But they don't agree with me. Can you give me some advice?

Yours,

Li Yang

### Reading makes a full man

Reading is very important in our life. We can get knowledge by reading. It can not only open our minds but also make us more intelligent. Besides, reading is one of the most important ways to learn a foreign language like English.

Textbooks, newspapers, magazines and other kinds of reading materials can help us know more about the outside world and help us become an excellent person.

I'm planning to read at least five books in the coming holiday. And I'll spend more time reading every day in my senior high school life. Reading makes a full man! Let's start reading now.

### Do we need sports?

Every day we only have a little time for sports, because we have too much homework to do. Our parents usually keep us from doing sports because they think taking exercise is a waste of time. In their opinions, we should pay more attention to our study. But they don't know that we are often tired and sleepy after a long time of study. Some of us even feel bored with our lessons. So it is quite necessary for us to take more exercise. I think we must have at least one hour to do exercise every day. Doing sports is a good way for us to relax and keep fit. What's more, a healthy body can help us study better and live a happier life.

### The opinion of using WeChat

Last week, we had a discussion about using WeChat. Here are the results. Some students think WeChat is a very useful

tool. It can provide a platform for communicating with their friends. Besides, they can make more friends and learn more knowledge by WeChat.

However, some students think WeChat will affect their study if they spend too much time using it. And they may be tricked by online friends. Last but not least, it will also be bad for their eyesight to use WeChat for a long time.

In my opinion, we shouldn't use WeChat for too long and should make sure that we don't use it when we are studying. In addition, we shouldn't communicate with strangers casually or meet online friends without our parents' permission.

Dear Sir,

I'm Li Ming, a 15-year-old student. I'm good at English and swimming. I want to take part in the summer camp in Australia organised by our school.

Australia is a beautiful country. There are many things to see and to do there. I'd like to talk with Australian students in English, enjoy the delicious food, and take photos of kangaroos. I also want to have a good time on the beautiful beaches of Australia.

I'm sure that this summer camp in Australia will be an unforgettable experience for me. I'm really looking forward to it!

Yours,

Li Ming

#### My low-carbon life

As we all know, the environment around us is becoming worse and worse. It's our duty to protect the environment. And I think it's important to live a low-carbon life. So first, I go to school on foot every day and tell my parents to go to work by bus instead of driving the car. Second, I save water and electricity by turning off the taps, fans, TV sets and lights when I don't need them. What's more, water is reused in my house. Third, I think that it is good to make full use of paper, so I use the both sides. By doing this, I will save many trees. At last, I go shopping with my basket instead of plastic bags. I believe that our life will become better and better if we all can do these things.

Lower carbon, and happier life. Let's take action.
